PREFACE

This report presents the **preliminary count** of all the population residing in Samoa as collected during the census enumeration period which was conducted from the 18th of October to the 6th of November 2021.

The preliminary results shows the population by sex and the following areas as listed below

- 4 Statistical regions
- 51 Political districts
- 343 Villages

This is the first time the population has been tabulated based on the new distribution of political districts and villages used in the national election by the Office of the Electoral Commission in April 2021.

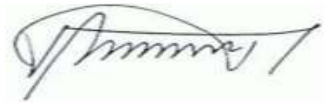

This document shows the population count from the two census years, 2016 and 2021. The next release will disseminate the final count and the analysis report of all the information collected from the census.

We hope that this Village Directory 2021 will inform the public of the changes that are taking place in the population count of Samoa and how those changes will impact on social and economic developments in the villages and political districts.

We acknowledge with much appreciation the great contribution by all the household respondents in providing the information requested and also all the Census workers who worked hard in the collection of required information.

We would also like to dedicate this first release of the census reports to Afioga Aliimuamua Malaefono Tauā Taaloga Faasalaina a former Government Statistician for her great contribution to this very important project for the Government of Samoa. May she rest in peace at the Kingdom of our Lord.

la viia le Atua i galuega lelei uma ua faatinoina ma le faamaoni.

Papalii Benjamin Sila
ACTING GOVERNMENT STATISTICIAN/CEO
